

Recessed baseboard

Low temperature heating systems are the most effective for making and maintaining a comfortable room temperature.

**Construction:**

Colours : White, epoxy/polyester powder paint.

Construction: 20 gauge

Protection against overheating.

Power: 200 Watts / ft

Tension: 220, 240, 277, 347volts.

**Element** : Stainless steel centre fixed tube with floating edges in a nylon sleeve to eliminate the noise of the expanding and contracting metal throughout the heating cycles.

**Warranty** - Life time warranty on the electric heating element applies to the initial end user; 1 year on the other components.
