Architectural Electric heating

When *STYLE* matters...

SFC-X

Baseboard inside the window frame

Construction:

Colours : White, epoxy/polyester powder paint.

Construction: 20 gauge

Protection against overheating.

Power: 50 TO 100 Watts / ft

Tension: 220, 240, 277, 347volts.

Element : Stainless steel centre fixed tube with floating edges in a nylon sleeve to eliminate the noise of the expanding and contracting metal throughout the heating cycles.

Warranty - Life time warranty on the electric heating element applies to the initial end user; 1 year on the other components.

Advantages are:

- Eliminates condensation on the windows.
- More latitude to position the furniture.
- More uniform distribution of heat.
- A net of hot air covers the whole width of each window.
- Very popular with those who like to remove all mechanical elements on the ground.
